EXPERIENCE

Leidos, Morgantown, WV— *Software Engineer*

April 2021- Present

*Continuous development of internal framework and tooling for React-JS front end development and Java backend development.

*Implemented several backend services as part of a large, complicated project involving tracking and displaying aircraft using Java, Python, Kafka, and a variety of APIs.

*Used Typescript/React-JS to implement front-end features for same project

*Worked within an Agile software development cycle to complete features within deadline requirements and presented weekly demonstrations/explanations of my work to both clients and upper management interested in our project

Veritas Contracting, Fairmont, WV— *Human Resources Manager*

April 2018 - August 2019

Multifaceted role including hiring/onboarding, payroll accounting, taxes, purchasing, and bookkeeping for a medium-sized general construction contractor.

Mylan Pharmaceuticals, Morgantown, WV— *Packaging*

April 2014 - April 2018

Packaging and blending production departments for a major pharmaceutical company.

Aegis Communications, Fairmont, WV— *Training Manager*

September 2008 - April 2014

Trainer, supervisor, and Subject Matter Expert for a large healthcare insurance company. Led the training of over 300 employees while exceeding attrition/performance goals.
